

Special Issue

New Trends in Inflammation Management

Message from the Guest Editors

This Special Issue aims to improve our understanding of the pathophysiological processes in chronic inflammation and the latest achievements in the therapies for inflammatory diseases. This Special Issue will publish original research articles in the field on the current understanding of molecular and cellular mechanisms involved in chronic inflammation as well as innovative, targeted and precision therapies. Review articles with a critical and detailed analysis of the published research and forecasting future avenues for the research in this field will be also valuable for this Special Issue. Keywords

- chronic inflammation
- nanomedicine
- pro-inflammatory mediators
- anti-inflammatory agents
- immunomodulation
- advanced therapies
- precision therapy

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
