

Special Issue

Molecular Basis and Advances of Targeted Therapy for Breast Cancer: Second Edition

Message from the Guest Editors

Breast cancer (BC) is the most frequent cancer and the second cause of death by cancer in women worldwide. This Special Issue focuses on translational science in the hopes of shedding light on research focused on “Molecular Basis and Advances of Targeted Therapy for Breast Cancer” and the therapy on breast cancer and overcoming breast cancer therapy resistance. The BC molecular subtype can determine the personalized therapeutic approach, e.g., targeted treatments such as endocrine therapy for HR+ BC or anti-HER2 therapy for HER2+ BC. The mechanisms underlying drug resistance are a good strategy to develop novel treatments for BC. The mTOR/PI3K/Akt pathway is involved in the mechanism of resistance in all BC molecular subtypes, but many data show that resistance results from drug exclusion, drug metabolism, and modification of the drug target due to mutation or overexpression. The editors welcome submissions from researchers involved in basic breast cancer research as well as clinical research. Comprehensive reviews and original papers are both welcome.

Guest Editors

Dr. Nicoletta Cordani

School of Medicine and Surgery, Milano-Bicocca University, 20900 Monza, Italy

Prof. Dr. Manfioletti Guidalberto

Department of Life Sciences, University of Trieste, 34127 Trieste, Italy

Deadline for manuscript submissions

20 December 2025

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
