

Special Issue

Extracellular Vesicles in Microbes, Pathogens and Infectious Diseases: 2nd Edition

Message from the Guest Editors

This Special Issue of *IJMS* is focused on extracellular vesicles in microbes, pathogens and infectious diseases. This Special Issue welcomes papers covering microbial Extracellular vesicles (EVs)' characterization, quantification, purification, their cargos, and the elucidation of their biogenesis and roles during infections.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
