# Special Issue Glycosaminoglycans

# Message from the Guest Editors

Glycosaminoglycans (GAGs) are receiving increasing scientific interest for their structural features, bioactivity, and biochemical role in different physiological and pathological conditions. Structural modifications of wellknown GAGs are found in natural sources and/or obtained through custom tailored semisynthetic approaches. The aim of this Special Issue is to cover, with the help and expertise of contributing authors, three main aspects of the ongoing research and innovation on this topic: a) novel biotechnological and biosynthetic strategies to obtain GAG-like molecules: b) innovative approaches in the modification and characterization of GAGs; c) advances in unraveling and exploiting GAGs functional roles in biomedical sciences. Interest will also be given to innovative aspects related to the biomacromolecules interaction with specific cells targets, towards the assessment of GAGs as effectors in the biochemical cascade.

# Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### **Editor-in-Chief**

#### Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences, Sez-Biochimica, Faculty of Medicine, Università Politecnica delle Marche, Via Ranieri 65, 60100 Ancona, Italy

### **Author Benefits**

## **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

# **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
