

## Special Issue

# Gonadotropin-Releasing Hormone Receptor Signaling and Functions 2.0

### Message from the Guest Editor

GnRH is the primary hormone which controls the reproductive system in all vertebrates. GnRH binds to its cognate receptor (GnRHR) in pituitary gonadotropes to regulate the synthesis and secretion of the gonadotropins: Luteinizing Hormone (LH) and Follicle Stimulating Hormone (FSH). LH and FSH in turn control gametogenesis and sex hormone production in the gonads. Hence, a novel potential treatment for hormone-independent CaP is required. Indeed, direct apoptotic effects of GnRH-A upon hormone-independent CaP cells (DU-145) has been described, but the magnitude of the effect was not sufficient. Since there is no cure to advanced hormone-resistant CaP, new vistas for the development of a therapy are required.

### Guest Editor

Prof. Dr. Zvi Naor

Department of Biochemistry and Neurobiology, Tel Aviv University,  
Ramat Aviv 69978, Israel

### Deadline for manuscript submissions

closed (31 December 2021)

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,  
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle  
Marche, Via Ranieri 65, 60100 Ancona, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)
