Growth Regulators in Plants

Message from the Guest Editor

This issue of *International Journal of Molecular Sciences* will focus on recent research on plant hormone biology. Novel bioanalytical methods for the investigation of phytohormones' metabolic pathways, as well as the preparation and testing of novel synthetic plant growth regulators and their derivatives, are also welcome.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
