

# Special Issue

## Gut Health and Nutrition

### Message from the Guest Editor

This Special Issue aims to gather together innovative research on linking diet composition with gut physiology/immunology, the pathogenesis of enteric diseases, and the mode of action of feed components and animal feed additives in order to improve gut health in both animals and humans. This Special Issue also aims to present studies that show how gut health can be managed and animal performance maintained or enhanced in the absence of antibiotics by using feed additives.

## About the Journal

### Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
