

## Special Issue

# Advances in Hepatocellular Carcinoma

### Message from the Guest Editor

Hepatocellular carcinoma (HCC) is the most common primary liver cancer; it frequently occurs in patients with chronic viral hepatitis, alcoholic liver disease, or non-alcoholic steatohepatitis (NASH). It is the sixth most common cancer and the fourth most common cause of cancer-related deaths in the world.

This Special Issue in the International Journal of Molecular Sciences entitled “Advancements in hepatocellular carcinoma” will pay particular attention to unexplored molecular mechanisms and signaling events in hepatocarcinogenesis, liver pathophysiology, the tumor microenvironment, and immune modulation during HCC progression and recurrence, and more importantly, novel strategies to treat or mitigate drug resistance for advanced HCC. We look forward to physicians and researchers interested in the unmet medical needs of advanced hepatocellular carcinoma sharing their exciting translational studies with broad readers and improving our knowledge towards future medical success.

### Guest Editor

Dr. Ting-Jung Wu

Division of Liver and Transplantation Surgery, Department of General Surgery, Chang-Gung Memorial Hospital at Linkou, College of Medicine, Chang-Gung University, Taoyuan, Taiwan

### Deadline for manuscript submissions

closed (31 August 2022)

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,  
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle  
Marche, Via Ranieri 65, 60100 Ancona, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)
