

Special Issue

Prevention of Infection and Beyond: Prophylactic and Therapeutic Vaccines

Message from the Guest Editor

Just as the immune system is now recognized to go beyond antimicrobial protections and contribute to the maintenance and repair of body systems, vaccines also have the potential for therapy and treatments beyond antimicrobial prophylaxis. In addition to the more challenging antimicrobial targets, therapeutic vaccines are being developed to treat cancer and immunological diseases. New technologies are receiving increased acceptance for the development and administration of these and other vaccines. This Special Issue will be devoted to the utilization of newer technologies for the identification and synthesis of unique immunogens and the utilization of these immunogens to prevent or treat microbial diseases, cancer, rheumatoid arthritis, and other inflammatory or autoimmune diseases.

Guest Editor

Prof. Dr. Kenneth Steven Rosenthal

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
