Special Issue

Molecular Aspects of Hematological Malignancies and Benign Hematological Disorders 2.0

Message from the Guest Editor

Hematological malignancies are complex disorders characterized by a complex molecular basis. The study and current understanding of their pathogenesis has been made possible by the recents advances in laboratory techniques such as molecular biology, flowcytometry, cytogenetics, pathology and immunohistochemistry (to name a few), all of which have enabled the discovery and implementation of targeted therapies in the management of these peculiar disorders. The current special issue aims to provide an insight into the molecular aspects of blood cancers as well as their impact on the diagnosis, evolution and management of hematological malignancies. The submission of preclinical and translational research articles, as well as narrative and systematic reviews, is greatly encouraged.

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences, Sez-Biochimica, Faculty of Medicine, Università Politecnica delle Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
