

Special Issue

Recent Research on Biomimetic Chromatography, QSAR and Chemoinformatics in Molecular Modeling and Drug Design

Message from the Guest Editor

This Special Issue focuses on the application of various biomimetic chromatographic techniques, molecular simulation and related computational methods to the drug discovery process, including virtual screening. As *IJMS* is a journal of molecular science, pure clinical studies are not suitable for this journal. However, clinical or pure model submissions with biomolecular experiments are welcome.

Guest Editor

Dr. Małgorzata Janicka

Department of Physical Chemistry, Faculty of Chemistry, Maria Curie-Skłodowska University, Lublin, Poland

Deadline for manuscript submissions

20 March 2026

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
