Human Meningioma: Recent Developments

Message from the Guest Editors

Meningioma is a very common primary brain tumor, yet its biological behavior and therapeutic response vary widely. Recent advances in molecular and genomic profiling have reshaped our understanding of tumor classification, progression, and treatment resistance. This Special Issue of *International Journal of Molecular Sciences*, “Human Meningioma: Recent Developments,” aims to highlight the latest discoveries in molecular and cellular mechanisms underlying meningioma pathogenesis and treatment. We welcome studies integrating biomolecular experiments, genomic and transcriptomic analyses, radiogenomics, and translational approaches that connect molecular findings with clinical outcomes. Submissions involving both clinical data and molecular experiments are particularly encouraged to promote a comprehensive understanding of meningioma biology and to pave the way toward precision neurosurgical and radiosurgical care.

Guest Editors

Dr. Jason P. Sheehan
Dr. Yuki Shinya
Dr. Stylianos Pikis

Deadline for manuscript submissions

20 November 2026

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
