

Special Issue

Advanced Research on Macrophages in Human Health and Disease

Message from the Guest Editor

In this Special Issue of *IJMS*, we will focus on the physiological functions of human macrophages developed under healthy conditions at the molecular level, the mechanisms involved in disease establishment and/or progression, and how some of these mechanisms could be exploited therapeutically. We will consider submissions of original research reports, reviews, and methodology articles.

Guest Editor

Prof. Dr. María Martínez-Esparza

Department of Biochemistry and Molecular Biology B and Immunology, Faculty of Medicine, University of Murcia, Health Science Campus, El Palmar, E-30120 Murcia, Spain

Deadline for manuscript submissions

closed (20 April 2025)

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
