Dissecting Mechanisms of Action of Biologics in Inflammatory Bowel Diseases

Message from the Guest Editors

In the last years, new and different biological agents that target specific immunological pathways have been investigated and approved. The establishment of new goals in the management of IBD and the continuation in the understanding of the pathogenetic mechanisms of IBD have allowed the development of new biological drugs and small molecules. We expect promising results and new scenarios through the study of on-going, and future, trials. Thus, with this Special Issue, we are particularly interested in articles that describe the mechanism and the specific targets of these new biological agents and their clinical applications. For detailed information, you can refer to http://www.mdpi.com/journal/ijms/special_issues/IBD_2016.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
