

## Special Issue

# Vector–Pathogen–Host Interaction, Vaccines and Immunobiologicals

### Message from the Guest Editors

The intricate interplay between vectors, pathogens, and hosts shapes the dynamics of infectious diseases, influencing transmission, immune evasion, and disease outcomes. Advances in molecular biology, immunology, and biotechnology have provided novel insights into how pathogens exploit vectors and hosts, as well as how immune responses can be modulated to enhance protection. This Special Issue, Vector–Pathogen–Host Interaction, Vaccines and Immunobiologicals, invites original research and review articles that explore the molecular mechanisms underlying these interactions. We welcome studies on pathogen adaptation, immune system modulation, vaccine development, and immunotherapeutic approaches. Contributions incorporating omics technologies, structural biology, and molecular immunology are particularly encouraged. As the International Journal of Molecular Sciences focuses on molecular research, submissions should emphasize molecular data, providing mechanistic insights into host–pathogen–vector dynamics and innovative therapeutic strategies.

## About the Journal

### Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
