

## Special Issue

# Advances in the Pathophysiology and Treatment of Diabetic Retinopathy

### Message from the Guest Editors

This Special Issue will include invited and refereed publications on recent advances in both basic and clinical research on diabetic retinopathy. An emphasis will be placed on early developmental events, including cellular and molecular mechanisms underlying diabetic retinopathy. In addition, this issue will highlight modern clinical intervention approaches in the prevention and treatment of diabetic retinopathy, with a strong emphasis on molecular biology and molecular medicine. Manuscripts purely based on clinical studies will not be considered. Submission of manuscripts including original scientific research articles, comprehensive reviews, communications, case reports, letters and commentaries are welcome.

---

### Guest Editors

Dr. Federico Gonzalez-Fernandez

1. Departments of Ophthalmology and Pathology, University of Mississippi Medical Center, Jackson, MS 39216, USA
2. Research & Development Service, G.V. (Sonny) Montgomery Veterans Affairs Medical Center, Jackson, MS 39216, USA

Prof. Dr. Andrew Tsin

Department of Biomedical Sciences, University of Texas Rio Grande Valley School of Medicine, Edinburg, TX 78541, USA

---

### Deadline for manuscript submissions

closed (20 August 2025)

## About the Journal

### Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
