

Special Issue

Sexual Dimorphism in Cancers: Gender-Related Mechanisms in Cancer Development

Message from the Guest Editor

The purpose of this Special Issue of *IJMS* is to explore how sex and gender issues may act in influencing the lifestyle, physiology, cell proliferation or differentiation control, and molecular pathways that underpin tumor development and patient responses in men versus women. Moreover, sex-specific cancer traits that impact diagnoses, clinical practice, patient care, and responses to standard treatments should be highlighted to help precision medicine. This Special Issue will also focus on how tumor-related processes can be determined or modified by sex-dependent issues. The Special Issue will cover studies considering patient cohort analyses, animal models, biochemical and/or experimental studies investigating molecular pathways, and reviews exploring new insights into the impacts of sex and gender on cancers

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
