

Special Issue

Immunophenotyping in Autoimmune Diseases and Cancer

Message from the Guest Editors

We would like to call authors to publish their latest achievements associated with the perturbation of the regulation of immune activation and the discovery of rare subpopulations of both innate and adaptive immune players in autoimmune diseases and cancer.

This Special Issue will publish works presenting not only the description of different cellular subtypes but also the identification of novel key molecular factors. Submission of research articles is mainly expected. Because of the recent developments in high-content, multilevel profiling technologies, review articles from pioneer scientists can also be considered.

Guest Editors

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
