Insights in New Biomarkers and Molecular Drug Targets in Hematological Neoplasias

Message from the Guest Editors

Hematologic neoplasias are a broad category of cancers of the hematopoietic system, including leukemias, lymphomas, multiple myeloma, myeloproliferative neoplasias, and myelodysplastic syndromes. Among the new cancer cases estimated to be diagnosed in the US in 2021, about 10% are expected to be leukemias, lymphomas, and myelomas, with leukemia in the top 10 of more lethal cancers worldwide.

This Special Issue aims to publish current research related to the discovery of novel biomarkers and molecular drug targets in hematological malignancies. Original research articles and review articles covering these knowledge fields are strongly invited, including: genetic and epigenetic alterations; cellular and molecular mechanisms; genomic, proteomic, and metabolic profiles; biomarkers of diagnosis, prognosis, monitoring, and therapy response; risk factors; and preclinical studies.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
