Hormonal/Noncoding RNA Regulation in Invertebrate Models

Message from the Guest Editors

Despite the fact that more than 97% of the described animal species are invertebrates, our understanding of their biology remains relatively poor when comparing to vertebrates. Invertebrates are dominant in many different habitats on Earth and are highly relevant to the human society at numerous aspects. In this Special Issue, we aim to provide the latest knowledge on a few invertebrate models, with a focus on either the hormonal or noncoding RNA regulation. Both research and review articles are welcomed, in order to provide the readers an insight into this important and yet relatively neglected group of animals. The current deadline of this Special Issue is set at 31 December 2022. Informal enquiries can be sent to: jeromehui@cuhk.edu.hk and/or bendenaw@queensu.ca. Look forward to hearing from you.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
