Synthesis and Biological Activity of Heterocyclic Compounds

Message from the Guest Editor

The importance of heterocyclic compounds is well known in a variety of fields of chemistry, in particular in medicinal chemistry. The term “heterocycles” encompasses both aromatic than saturated rings and they are often present in drugs, such as antiviral, antitumoral and anti-inflammatory compounds. In this Issue, we will focus on the synthesis, the functionalization and the biological application of heteroarenes (fused and not) containing one or more heteroatom. We are particularly interested in considering the most recent methodological advancements. Original papers, reviews articles, and perspectives from experts in the field are welcome.

Guest Editor

Prof. Dr. Maria Funicello

Dipartimento di Scienze, Università della Basilicata, Via Ateneo Lucano 10, 85100 Potenza, Italy

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
