Immunomodulatory Activities of Natural Products and Related Compounds in Inflammatory Diseases

Message from the Guest Editor

Natural products, primarily produced by living organisms such as plants, invertebrates and microorganisms, have been extensively explored as potential candidates for the treatment of various diseases. It is important to note that the efficacy and safety of natural products may vary widely, and rigorous scientific evaluation is always needed to justify the use of natural products for disease management. This Special Issue, titled 'Immunomodulatory Activities of Natural Products and Related Compounds in Inflammatory Diseases', aims to report on the current knowledge of the natural products with immunomodulatory activities in the prevention or treatment of inflammatory diseases. We will accept submissions of original papers, reviews, and perspective articles addressing any aspects of the aforementioned title.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
