Advances in Understanding Molecular Mechanisms Involved in Chronic Kidney Injury and Repair

Message from the Guest Editor

As the guest editor of this Special Issue, “Advances in Understanding Molecular Mechanisms Involved in Chronic Kidney Injury and Repair”, in *IJMS*, I expect submissions from researchers focusing on deciphering molecular mechanisms of kidney injury and repair with a strong emphasis on molecular biology and molecular medicine. Original research papers and comprehensive up-to-date review articles are all welcome.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
