

Special Issue

New Perspectives of Colloids for Biological Applications, 2nd Edition

Message from the Guest Editor

This special issue of the International Journal of Molecular Sciences is dedicated to the latest advances in colloid research and colloidal systems. It follows the highly popular first issue, "New Perspectives of Colloids for Biological Applications," and aims to highlight new, compelling research and innovative perspectives being conducted in leading laboratories worldwide. Our journal is an attractive, open-access publishing platform that focuses primarily on molecular-level research on systems with numerous practical applications, particularly in biology, medicine, and pharmacy. Therefore, preference will be given to articles that highlight the molecular aspects of colloid research. For example, how the production, modification, and application of colloids can be studied and understood through molecular interactions, mechanisms, and advanced molecular characterization techniques to advance science and, above all, improve health and quality of life. We hope that this special issue will make the journal even more attractive to readers.

Guest Editor

Prof. Dr. Agnieszka Ewa Wiącek

Department of Interfacial Phenomena, Faculty of Chemistry, Maria Curie-Skłodowska University, 20-031 Lublin, Poland

Deadline for manuscript submissions

28 February 2026

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
