

Special Issue

The Environment, Human Stress, and Gut Microbiome: A Triad in Disease Development

Message from the Guest Editors

The present Special Issue study explores the relationship between the environment, human stress, and the gut microbiome, examining how these factors can contribute to the development of diseases. **The following topics will be explored in this study (keywords):** gut microbiome stress interactions; environmental microbiome disease linkages; stress-driven microbiome dysbiosis; microbiome environment disease pathways; human microbiome stress responses; environmental stress disease mechanisms; gut microbiome oxidative stress interactions; environmental oxidative stress impacts; stress-driven microbiome oxidative imbalance; oxidative stress microbiome diseases; human oxidative stress pathways; oxidative stress disease mechanisms

Guest Editors

Prof. Dr. Natalia Kurhaluk

Institute of Biology, Pomeranian University in Słupsk, Słupsk, Poland

Dr. Halina Tkaczenko

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
