Special Issue

Editorial Board Members' Collection Series: Cancer Metastasis

Message from the Guest Editors

Cancer metastasis is defined as the spread of neoplastic cells from a primary site to distant or secondary sites within the body, where cancer cells establish and form new tumors. Metastasis is a hallmark of cancer and is the primary cause of cancer morbidity and mortality. This Special Issue of *IJMS* welcomes both original research and review articles related to any of the following aspects of cancer metastasis:

- Cancer metastasis routes;
- Molecular mechanisms of cancer metastasis;
- Genetic and epigenetic determinants of cancer metastasis;
- Cell communication in cancer metastasis mediated by extracellular vesicles;
- Mechanisms of chemoresistance in cancer metastasis;
- Angiogenesis and cancer metastasis;
- Immune evasion and suppression in cancer metastasis;
- Liquid biopsy and molecular biomarkers for the early detection of cancer metastases:
- Circulating tumor cells in cancer metastasis:
- Pre-metastatic niche formation and development.

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences, Sez-Biochimica, Faculty of Medicine, Università Politecnica delle Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
