

Special Issue

Recent Advances in Hypertension and Cardiovascular Disease: 2nd Edition

Message from the Guest Editor

This Special Issue is the continuation of our previous Special Issue “[Recent Advances in Hypertension and Cardiovascular Disease](#)”, published in 2022–2024. Hypertension (HT) remains the most important risk factor for premature cardiovascular disease (CVD), including stroke, coronary artery disease, heart failure, atrial fibrillation, and peripheral vascular disease, as well as chronic kidney disease (CKD). This Special Issue focuses on the pathophysiology, molecular mechanisms, and biomarkers of hypertension and CVD, with particular emphasis on chronic kidney disease, providing better knowledge regarding their development and consequently contributing to more effective prevention, the earliest diagnosis, and thus, appropriate treatment. We warmly welcome submissions, including original papers and reviews, regarding this widely discussed topic. Data related to molecular mechanisms or pathophysiology are essential, and papers that only contain clinical trials/data are not acceptable.

Guest Editor

Prof. Dr. Edyta Zbroch

Department of Internal Medicine and Hypertension, Faculty of Medicine, Medical University of Białystok, 15-089 Białystok, Poland

Deadline for manuscript submissions

closed (30 December 2025)

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
