

Special Issue

Advances in Angiogenesis: From Molecular Insights to Therapeutic Strategies

Message from the Guest Editor

This Special Issue, entitled “*Advances in Angiogenesis: From Molecular Insights to Therapeutic Strategies*”, aims to collect original research and reviews focused on the molecular mechanisms underlying angiogenesis in physiological and pathological contexts, including cancer, wound healing, and inflammatory diseases. Particular attention will be given to innovative therapeutic strategies targeting angiogenic signaling pathways. Submissions should include biomolecular experiments that explore gene expression, signaling cascades, or molecular interactions. While purely clinical studies are not within the scope of *IJMS*, translational research and model-based studies incorporating molecular biology data are encouraged. Our goal is to bridge basic science and potential clinical applications through a molecular lens.

Guest Editor

Dr. Emanuela Pessolano

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
