

Special Issue

Genetic and Epigenetic Influences on Personality Traits and Athletic Performance

Message from the Guest Editor

This Special Issue aims to bring together cutting-edge research that explores the genetic and epigenetic underpinnings of personality traits and athletic performance. We encourage submissions that employ advanced methodologies, including genome-wide association studies (GWAS), epigenome-wide association studies (EWAS), and other approaches that explore genetic, epigenetic, and environmental data. Research exploring the genetic predispositions contributing to athletic excellence and the epigenetic and microbiota changes associated with physical training will be particularly relevant. This Special Issue is supervised by Dr. Kinga Humińska-Lisowska, assisted by our Topical Advisory Panel Member Dr. Aleksandra Bojarczuk (Gdansk University of Physical Education and Sport, Poland).

Guest Editor

Dr. Kinga Huminska-Lisowska

Faculty of Physical Education, Gdansk University of Physical Education and Sport, 80-336 Gdansk, Poland

Deadline for manuscript submissions

30 January 2026

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
