

## Special Issue

# Molecular Signalling in Multitrophic Systems Involving Arthropods

### Message from the Guest Editor

This interdisciplinary Special Issue aims to collect cutting-edge research and comprehensive reviews that enhance our understanding of the intricate molecular interactions within multitrophic systems involving arthropods. We welcome studies that provide insights into genomics and transcriptomics to uncover the genetic basis of signaling mechanisms and their evolutionary adaptations.

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)
