Molecular Signalling in Multitrophic Systems Involving Arthropods

Message from the Guest Editor

This interdisciplinary Special Issue aims to collect cutting-edge research and comprehensive reviews that enhance our understanding of the intricate molecular interactions within multitrophic systems involving arthropods. We welcome studies that provide insights into genomics and transcriptomics to uncover the genetic basis of signaling mechanisms and their evolutionary adaptations.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
