Advances in Research for Ornamental Plants Breeding

Message from the Guest Editor

Ornamental plants provide greenery in cities and other inhabited areas, in gardens and parks, and outside of public buildings and residences. Subjects of ornamental plant breeding include various species of trees and shrubs, perennials, biennials, annuals, grasses, bulbs, etc. With the rapid developments in techniques of molecular biology, the efficiency of breeding ornamental plants is greatly elevated through the utilization of molecular approaches. This Special Issue will focus on the breeding of ornamental plants.

Guest Editor

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
