

Special Issue

Vascular Changes in Systemic Degenerative Diseases and Their Pathological Implications: Molecular Biological Insights

Message from the Guest Editors

This Special Issue aims to provide a comprehensive overview of the role of vascular changes in all types of systemic degenerative diseases. We want to bring the pathophysiological changes of all systemic degenerative diseases, their relations with the other systems of the body, along with their relations with vascular changes under one umbrella, so that researchers in the field of systemic degenerative diseases can benefit from the knowledge of other disciplines, and get a new perspective on their own field of degenerative diseases. The present Special Issue, entitled “Vascular Changes in Systemic Degenerative Diseases and their pathological implications: Molecular Biological Insights”, aims to present recent research developments to the wider community involved in this field. We welcome contributions in this field.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
