

## Special Issue

# The Microbiota-Gut-Brain Axis in Relation to Non-communicable Diseases

### Message from the Guest Editors

The discovery of the gut-brain axis as the crucial connection between gut microbiota and the nervous system, and the growing body of evidence on the connections between gut microbiota and nervous system physiology and pathology is increasing awareness around bidirectional communication along the microbiota-gut-brain axis (MGBA) mediated by biologically active molecules and metabolites. The appearance of intestinal dysbiosis leads to changes in the bidirectional relationship of the MGBA. It can also impact the brain, as well as the aging and the deterioration of the nervous system, driving towards pathological conditions such as Alzheimer's disease and stroke. Comparatively, the MGBA can be influenced by nutrients and bioactive molecules, inducing the secretion of specific hormones, which can then lead to changes in the energy metabolism and expenditure. The design of drugs, functional foods, and ingredients based on bioactive molecules exploiting the involved mechanisms may offer interesting alternatives for the treatment of non-communicable and high-prevalence diseases.

### Guest Editors

Dr. Diego A. Moreno

Dr. Bruno Ramos-Molina

Dr. Antonio J. Ruiz-Alcaraz

### Deadline for manuscript submissions

closed (20 March 2025)

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,  
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle  
Marche, Via Ranieri 65, 60100 Ancona, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)
