Editorial Board Members' Collection Series: "Emerging Progress in Nanomedicine"

Message from the Guest Editors

We are pleased to announce this Special Issue collection titled "Editorial Board Members' Collection Series: "Emerging Progress in Nanomedicine"". This Issue aims to collect high-quality research articles, short communications, and review articles in all fields of nanomedicine. We encourage the Editorial Board Members of the *International Journal of Molecular Sciences* and researchers invited by the Editorial Board Members to contribute papers reflecting the latest progress in their research field. Topics include, but are not limited to, the following:

- Nanomedicine in brain disease therapy;
- Nanomedicine in cancer targeting and therapy;
- Nanomedicine in cardiovascular diseases therapy;
- Targeted delivery of nanodrug;
- Nanodrug design and synthesis;
- Immunomodulatory nanomedicine;
- Bioactive nanomaterials;
- Nanotoxicology.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
