

Special Issue

Molecular Mechanisms of Pregnancy Complications

Message from the Guest Editor

The Special Issue, titled "Molecular Mechanisms of Pregnancy Complications", aims to explore and analyze the complex biological processes and underlying molecular mechanisms that contribute to various pregnancy complications. We invite submissions that investigate the cellular and molecular causes or consequences of conditions or diseases associated with pregnancy, including gestational diabetes, preeclampsia, fetal growth restriction, and others. Our objective is to advance diagnosis, treatment, and maternal–fetal health outcomes by deepening our understanding of these disorders from both a fundamental scientific and clinical standpoint. We aim to focus on, but are not restricted to, interdisciplinary collaboration between experts in molecular biology, obstetrics, and gynecology through the acceptance of research articles, reviews, and studies that illuminate novel molecular pathways, biomarkers, and therapeutic approaches.

Guest Editor

Dr. Luis A. Silva-Lagos

Immunoendocrinology, Division of Medical Biology, Department of Pathology and Medical Biology, University Medical Center Groningen, Hanzeplein 1, 9713 GZ Groningen, The Netherlands

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
