

## Special Issue

# Cell Metabolism and Small Natural Compounds

### Message from the Guest Editors

Given the particular historical moment we are living, this special issue aims to focus more attention of the entire scientific community on the great therapeutic potential of natural compounds, and especially on their safety for health. In particular, we encourage the submission of original manuscripts and reviews that bring new insights and information on the biochemical interaction of known or novel natural compounds with cellular metabolism, in health and disease, to design new and innovative therapeutic approaches. **Keywords:**

- cell metabolism
- mitochondria
- ROS
- RNS
- proliferation and cell death
- metabolic pathways
- natural compounds
- bioactive molecules
- human pathology

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
