Special Issue

Retinal Degenerative Diseases

Message from the Guest Editors

The Special Issue ran from 28 September 2021 to 30 April 2023.

This Special Issue aims to study retinal degenerative diseases to shed light on the events that take place in the retina during the course of these diseases, such as neuronal degeneration, glial activation, etc., as well as their possible present and future treatments. Keywords:

- retina
- photoreceptor degenerative diseases
- inherited retinal degenerations
- glaucoma
- retinal pigment epithelial cells
- retinal ganglion cells (RGCs)
- neuronal degeneration
- glial activation

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences, Sez-Biochimica, Faculty of Medicine, Università Politecnica delle Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
