

## Special Issue

# Molecular Mechanisms, Pathophysiology and Phenotypes of Mitochondrial Disorders

### Message from the Guest Editor

Mitochondrial diseases are the most common inheritable metabolic diseases resulting from defects in oxidative phosphorylation. They are caused by mutations of nuclear or mitochondrial DNA in genes involved in mitochondrial function. While some mitochondrial disorders only affect a single organ (e.g., the eye in Leber hereditary optic neuropathy), many involve multiple organ systems and often present with prominent neurologic features. Understanding the phenotypic diversity and elucidating the molecular mechanisms at the basis of these diseases has, however, proved challenging. With this Special Issue, we intent to explore the molecular basis, the clinical spectrum, the diagnostic approach and the treatment advances of these devastating disorders.

### Guest Editor

Prof. Dr. Michelangelo Mancuso

Department of Clinical and Experimental Medicine, Neurological Institute, University of Pisa, 56126 Pisa, Italy

### Deadline for manuscript submissions

closed (31 May 2022)

## About the Journal

### Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)
