

## Special Issue

# Molecular Research in Neuro-Urology

### Message from the Guest Editor

The control of lower urinary tract function is a complex, multilevel central and peripheral process with a neural network distributed across parasympathetic, sympathetic, and somatic pathways. It is therefore not surprising that many neurological disorders such as multiple sclerosis, Parkinson's disease, stroke, spinal cord injury, spina bifida, diabetic neuropathy, Alzheimer's disease, etc. frequently result in lower urinary tract, sexual and bowel dysfunction. The location and extent of the lesion in the neurological axis determines the dysfunction pattern, which is reflected in the patient's symptoms. Many questions regarding the neural control of lower urinary tract, sexual, and bowel function and its alterations through the course of a neurological disorder remain unclear.

This Special Issue of the International Journal of Molecular Sciences (IJMS) focuses on the molecular level of mechanisms involved in neuro-urology and welcomes both original research articles and review papers.

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)
