

Special Issue

Inflammatory Airway Diseases: Diagnosis, Pathology, Molecular Mechanisms and Treatment Options

Message from the Guest Editor

This Special Issue invites authors to submit original research articles, review articles and case reports that summarize current molecular research advances in diagnostic, prevention, and therapy of inflammatory airway diseases. The goal of this Special Issue is to present new ideas and data to help characterize those diseases better and identify potential novel treatment strategies.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
