

## Special Issue

# Advances in the Genetics, Epidemiology and Management of Myopathies

### Message from the Guest Editors

Myopathies are a group of muscle disorders characterized clinically by muscle weakness, premature fatigue and muscle pain (myalgia). Although various candidate genes have been associated with the various phenotypic and histological expressions of myopathies, the unexpectedly wide epidemiological genetic and clinical heterogeneity of these disorders calls for more extensive research on the genetic factors that influence their pathogenesis. Moreover, research concerning advancements in the epidemiology and management of myopathies have elucidated the unmet need for further research on these topics. This Special Issue therefore aims to collect studies that address the role of genetic factors in the pathogenesis of myopathies, as well as those that address epidemiology and recent advancements in the treatment of myopathies. Since *IJMS* is a journal of molecular science, we will not accept the submission of purely clinical studies, but clinical submissions that present biomolecular experiments are welcome.

### Guest Editors

Dr. Efthimios Dardiotis

1. Department of Neurology, Laboratory of Neurogenetics, University Hospital of Larissa, 41110 Larissa, Greece
2. School of Medicine, University of Thessaly, 41110 Larissa, Greece

Dr. Vasileios Siokas

1. Department of Neurology, Laboratory of Neurogenetics, University Hospital of Larissa, 41110 Larissa, Greece
2. School of Medicine, University of Thessaly, 41110 Larissa, Greece

### Deadline for manuscript submissions

20 February 2026

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)
