Coronavirus Disease (COVID-19): Pathophysiology 4.0

Message from the Guest Editors

In this Special Issue, entitled “Coronavirus Disease (COVID-19): Pathophysiology”, we aim to present research and theoretical papers addressing all of these questions in addition to many others related to COVID-19. Thus, we invite colleagues working in any field related to COVID-19, from viral genetics to epidemiology and computer modeling, to submit their work for publication in this Special Issue. We believe that this Special Issue of the *International Journal of Molecular Sciences* will be not only very timely but also scientifically innovative and exciting.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
