Special Issue

Molecular Advances in Research of Neuroendocrine Tumors

Message from the Guest Editor

Neuroendocrine tumors (NETs) are considered rare tumors that originate from specialized endocrine cells. At the time of diagnosis, patients often present with metastatic disease which impairs their quality of life and prognosis. An understanding of the biomarkers and genetic mutations that drive these tumors could help to detect NETs at an earlier stage. This suggests that there is a need to understand the genetic aberrations and molecular subtypes and the treatment effects of several drugs to develop personalized treatments. We are pleased to invite you to submit an article to the Special Issue "Molecular Advances in Research of Neuroendocrine Tumors". In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Cell signaling:
- Translational research;
- Drug response.

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences, Sez-Biochimica, Faculty of Medicine, Università Politecnica delle Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
