Advances in Natural Products for Application in Biomedicine and Pharmacotherapy 2.0

Message from the Guest Editor

Natural products are small molecules produced naturally by any organism, including primary and secondary metabolites. Natural products have a wide range of possible applications, such as in biomedicine and pharmacotherapy, and can be useful in the treatment and management various kinds of human diseases due to their outstanding biological properties. Moreover, bioactive compounds and pharmaceuticals derived from natural products have received increasing attention due to their considerable benefits for human health. This Special Issue will shape the future research direction of important natural products as well as related bioactives. Our purpose is to feature high-quality, advanced research and knowledge contributed by various research groups working on natural products from all around the world. This Special Issue invite researchers to contribute reviews and original research reports of their recent work on the functional and medicinal properties of natural products. This Special Issue will include recent advances in the natural products with significant potential benefits for human health.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
