

## Special Issue

# Molecular Pathology, Diagnostics, and Therapeutics of Nephropathy

### Message from the Guest Editors

Until recently, kidney disease was most frequently diagnosed exclusively based on histologic examination of kidney biopsy and treated with non-specific immunosuppression. The availability of new diagnostic methods resulted not only in a better understanding of the molecular pathogenesis of different kidney diseases and more specific and non-invasive diagnostics, but also in the identification of new molecular targets for more personalized treatment with putative better efficacy and safety. This Special Issue "Molecular Pathology, Diagnostics and Therapy of Kidney Disease" invites contributions of both original articles and reviews dedicated to the advanced diagnostics and new treatment approaches in chronic kidney disease. Attention is paid not only to glomerular disease, but also autosomal dominant polycystic kidney disease and kidney transplantation.

---

### Guest Editors

Prof. Dr. Vladimír Tesar

1st Faculty of Medicine, General University Hospital, Department of Nephrology, Charles University, Prague, Czech Republic

Dr. Andreas Kronbichler

Department of Internal Medicine IV (Nephrology and Hypertension), Anichstrasse 35, 6020 Innsbruck, Austria

---

### Deadline for manuscript submissions

closed (28 February 2022)

## About the Journal

### Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
