

Special Issue

Dysfunction in Neurovascular Unit, Neuroinflammation, and the Neurodegenerative Diseases

Message from the Guest Editors

This Special Issue of the International Journal of Molecular Sciences entitled “Dysfunction in Neurovascular Unit, Neuroinflammation, and the Neurodegenerative diseases” aims to highlight the importance of the role of neuroinflammation triggered by dysregulation of the NVU in the development of neurodegenerative diseases and dissecting the mechanisms behind of it.

We welcome research articles that will improve the understanding in pathophysiological mechanisms of disruption of the NVU and its migration of peripheral factors correlated with various types of brain immune responses in the context of development of neurodegenerative. Moreover, we also recruit review article that discusses recent advances in the field that can provide information to audiences in the neurodegenerative field which would be helpful to understand the neurodegenerative diseases in a different angle.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
