

Special Issue

Plant–Microbe Interactions: 2nd Edition

Message from the Guest Editor

Plants are often affected by beneficial and pathogenic microorganisms. Microbiota are associated with crop growth and development due to their functions in mobilizing non-labile nutrients, mitigating abiotic and biotic stresses, and preventing pathogen infection.

This Special Issue provides a platform for molecular mechanistic research on plant–microbe interactions and plant development. We warmly welcome your submissions of original papers and reviews based on results from molecular points of view.

Guest Editor

Dr. Jian Jin

Northeast Institute of Geography and Agroecology, Chinese Academy of Sciences, Changchun 130102, China

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
