The Molecular and Cellular Pathophysiologic Mechanisms Underlying Ocular Diseases and Emerging Therapies

Message from the Guest Editor

Visual impairment and ophthalmic diseases are among the world's major public health problems, and their prevalence is increasing. It is important for researchers and eye care specialists to improve the understanding of risk factors involved, the genetic and biochemical biomarkers as well as cellular and molecular mechanisms underlying eye diseases. Identifying the molecular and cellular mechanisms responsible for the pathophysiological processes of eye diseases is crucial for the prevention, early diagnosis and implementation of novel therapeutic strategies. The aim of the current Special Issue is to provide an overview of the biomarkers and biological pathways underlying eye disease development and the identification of molecules that may serve as treatment targets. It will present new advances in the molecular and cellular pathogenesis of eye diseases, as well as the development of preventative measures and emerging therapies

Guest Editor

Dr. Snježana Kaštelan

Department of Ophthalmology, Clinical Hospital Dubrava, School of Medicine, University of Zagreb, 10000 Zagreb, Croatia

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
