Special Issue

Translational Research in Ophthalmic Pathology

Message from the Guest Editor

The field of ophthalmic pathology is confined to the work of a select number of ophthalmologists and pathologists worldwide. Nevertheless, structures as diverse as the eyelids, conjunctiva, orbit, and the diverse tissues of the globe, cornea, sclera, uvea, retina, lens, and optic nerve can give rise to a host of different diseases. Even significant advances in the knowledge of anatomy, histology, diagnostic histopathology, pathophysiology, or (epi) genetics may prove to be difficult to publish. This Special Issue, with its focus on molecular-level investigations, invites authors to submit tissue-based translational research that aims to elucidate the molecular pathophysiology of diseases of the eye and orbit. Rare as these may be, a better understanding of molecular histopathology and pathophysiology is essential for improving the diagnosis and, ultimately, treatment of patients.

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences, Sez-Biochimica, Faculty of Medicine, Università Politecnica delle Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
